The Mission of Open Studios is to advance and enrich the visual arts and promote the role of artists in the Boulder community. Open Studios advances the visual arts and serves artists and the general public through the following six programs:

• **OPEN STUDIOS TOUR** – This October, 147 artists open their studios for your visit during this free self-guided tour. Learn about the process of art-making, collect that perfect piece of art and develop new relationships with our community's artists.

• **PLEIN AIR EVENTS** – The Boulder Plain Air Festival and Boulder County Plain Air Event are held in alternating years to celebrate the beauty of our surroundings in art. The festival brings talented artists to Boulder County from around the country to create plain air art (art-making outdoors, from life) and compete for notoriety and awards. In odd-numbered years, the Plain Air Event is open to all Colorado artists of any skill level 15 and older, who take workshops together, make art and celebrate making art "en plein air."

• **EDLINKS** – Open Studios' professional artists are employed as artists-in-residence in the schools of Boulder County. Students learn diverse techniques and are exposed to the business of art.

• **MOBILE ART LAB** – The Lab's projects bring art enrichment to people of all ages in under-served communities. Participants explore creative, develop new skills and learn, while strengthening their communities.

• **COMMUNITY PUBLIC ART PROGRAM** – Through this program, artists and residents co-create art that tells the story of residential communities throughout Boulder.
